

How to Calculate Your Grade Point Average (GPA)

Your grade point average (GPA) is calculated by **dividing** the total amount of **quality points** earned by the total amount of **credit hours** completed.

Example Student Transcript			
Course	Credit Hours	Grades	Quality Points
Speech 101	3	A	12
English 101	3	B	9
Math 108	3	C	6
CS 100	3	F	0
Music 154	(3)	W	0
12 Total Credit Hours completed		27 Total Quality Points	

Grade		Point value
A	=	4
B	=	3
C	=	2
D	=	1
F	=	0
W	=	0

To get quality points, multiply credit hours by point value of grade (A=4, etc.) achieved in each course.
